

JV081017
Series 5106 & 5306
Cast Iron (Epoxy Coated) Body
Axial Disc
Spring-Loaded
Check (Non-Return) Valve
Flanged
PN16

A WRAS approved epoxy coated cast iron, spring loaded axial disc check valve with EPDM seats suitable for water applications offering good tightness at low differential pressures and can help to prevent water hammer.

Approvals, Features & Benefits

- WRAS approved
- Good tightness at low differential pressure
- Can prevent water hammer
- Suitable for potable water applications

Pressure & Temperature

Pressure range:-
16 bar

Temperature range*:-
-10°C to 120°C
